

Design brief taken 17 5 24

Short list of groups or events considered

- Tennis
- Rugby club
- Squash
- Show AMP
- Riffle club
- Yoga
- Toy library
- Netball
- Various community events
- School exams
- 7 a side school rugby

Brief

- 1 million budget
- Keep within footprint if possible.
- 1 shower block for all (can be combined)
- On septic tank system to be looked at by others with proposed design
- Campus use of toilets/ showers – camp by scott hall – paid to use
- Squash court – mezzanine floor wish to view (5 people x 4 groups= 20) easy break out space for after functions.
- Kitchen - too small – double the size – is it an option to put by bar? Commercial kitchen facilities upgrade.
- Look at option to increase hall size, for the next 50-100yrs. Hall is currently small but making bigger may cost too much (150 people fire rated) – will this number change? is future proof building for extension eg. Bigger hall?
- Changing rooms are too small for rugby, (but also will be used by netball, tennis, squash) – 4 are ideal (showers to be considered at the same time)
- Flow out of hall to new deck? Bifolds?
- Plan for other 2 halls to be removed + used here. – look to incorporate old halls character and history.
- Entry foyer with memorabilia from other hall / flow/ welcoming.
- Bad acoustics in hall + heating + insulation
- Potential stage area with plugs
- Current main entry is on side
- Bar is ok size + position
- No storage required for rugby (noticed during measure that this may be required)
- Outdoor toilets for show AMP + Netball (could incorporate in club)
- Shooters – 20 yards + catchment & shooter & judge x 6m. No storage (cupboard maybe) Riffle ok to use hall if compliance acceptable
 - o Need ventilation, catcher behind target. 4 mounds min/ space to set up gear.
